

random_variable< Generator >

```
graph BT; zeta["zeta< Generator >"] --> random_variable["random_variable< Generator >"]
```

A diagram illustrating inheritance. A light gray box labeled 'zeta< Generator >' is positioned below a white box labeled 'random_variable< Generator >'. A blue arrow points upwards from the top center of the 'zeta' box to the bottom center of the 'random_variable' box, indicating that 'zeta' inherits from 'random_variable'.
